

# SEI CORROSION PROOF™ SUPER DEGREASER CPT-801

CORROSION PREVENTION TECHNOLOGY

## DESCRIPTION

CPT-801 is a heavy duty cleaner and degreaser formulated to penetrate and remove heavy greases, oil deposits and hydrocarbon byproducts in oil and gas, marine and construction applications. The compounds contained in CPT-801 modify hydrocarbons that enable deposits to be removed very easily. CPT-801 can be incorporated into power washers, steam cleaners, dip tanks and other cleaning equipment. While most cleaning compounds available on the market today are simple blends of surfactants and detergents which limit their cleaning effectiveness, CPT-801 offers improved cleaning plus protective characteristics. CPT-801 has the ability to quickly remove such deposits as heavy hydrocarbons, grease, drawing and buffing compounds and machinery compounds.

## FEATURES

- Cleaner and degreaser with unique ability to modify and remove hydrocarbon deposits
- Provides exceptional protection
- Non-toxic and non-corrosive
- Provides excellent cleaning action at low temperatures
- Exhibits hard water tolerance
- Formulation remains stable during freeze-thaw cycle

## APPLICATION

CPT-801 can be applied with any conventional equipment including sprayers, dipping tanks, steam cleaners and power washers.

Heavy-duty Cleaning and Corrosion Protection:

## PACKAGING

CPT-801 is available in 5 gallon pails, 55 gallon drums, liquid totes and bulk.
