

SEI EFFLORESCENCE REMOVER™ AR-105

PRODUCT DESCRIPTION

AR-105 is a uniquely formulated product that replaces conventional mineral and organic acids for the removal of efflorescence. AR-105 is a non-fuming, phosphate-free product that is far more effective than other acids when dissolving efflorescence salts. This product is migratory in nature and is biodegradable and environmentally friendly. AR-105 contains a special surfactant that provides detergency properties that will also help in the removal of oil/grease stains. AR-105 does not contain any hydrofluoric acid, bleach, abrasives, caustic, mineral acids or petroleum distillates. It is formulated as a ready-to-use product.

TECHNICAL DATA

- Appearance: Amber liquid
- Odor: Mild
- lbs/gallon: 9.5 to 10
- Environmentally friendly
- Biodegradable
- User-safe
- VOC and AQMD compliant

GENERAL APPLICATION

TEST AREA: For best results test a solution of the AR-105 before general use. Protect polished and painted surfaces. Keep away from plants and vegetation. Use AR-105 to remove stubborn efflorescence from brick, block, stucco and other similar surfaces. Use full strength, do not dilute. Apply solution onto a dry surface from the bottom up. Let solution stand for 10-20 minutes, depending on surface and contaminates, agitate and rinse thoroughly or power wash. This product is also an effective rust and stain remover.

HEALTH & SAFETY

For specific information, please refer to the Material Safety Data Sheet. Wear chemical resistant gloves, apron, footwear and goggles.

PACKAGING

This product comes in 16oz., 5-gal pail and 55-gal drum
